

Top 10 Reasons to Choose Unitrends

All-in-one is Simpler, Faster, Better

1. Fully Integrated All-in-One Backup and Continuity Appliances

Unitrends has a complete family of purpose-built, fully integrated, all-in-one, appliances available in a range of deployment options. Included are the Recovery Series physical appliances and Unitrends Enterprise Backup software available in a format to run on your hardware or as a Virtual Machine in common hyperscale clouds.

2. Extensive Platform Support To Protect Everything

Get support for your unique mix of data center and cloud servers and other assets. Unitrends provides protection for 250+ versions of operating systems, hypervisors, and applications.

3. Spend Less Time on Backup, Recover Faster

The intuitive Unitrends user interface simplifies operations enabling you to recognize a rapid time to value with quick installation and experience 64% fewer clicks than required by the competition while performing ongoing operational tasks.

4. Secure, Optimized WAN Performance

Unitrends includes single-tenant/ multi-tenant support, 256-bit AES encryption in flight and at rest, WAN-optimized deduplication and compression as well as scheduling to ensure optimized RTO and RPO in both private and public clouds.

5. Reduced Recovery Time with Instant Recovery Powered by Unitrends Bridge™

Recovery capabilities provide, local instant recovery for VMware vSphere, Microsoft Hyper-V and Microsoft Windows for complete recovery of a system in less than 5 minutes. (Physical/GOS and Virtual/HOS).

6. Built-in Deduplication for Speedy Backup and WAN Data Transfers

Benefit from Adaptive Deduplication™, a hybrid

data reduction technology, combines inline compression with post-processing data deduplication that is global, variable, and content aware.

7. Broadest Range of Cloud Options

These options include long term retention services in the Unitrends Forever Cloud™ or integration with third party hyperscale clouds including those from Google, Amazon, Microsoft and Rackspace. Integration with cloud comes standard with all Unitrends appliances.

8. Cloud-empowered Disaster Recovery and Business Continuity

Unitrends Disaster Recovery as a Service (DRaaS) bolsters BC/DR readiness by providing rapid spin-up in the cloud for business critical servers. Offering white-glove service, Unitrends is the only vendor with a guaranteed 1-hour SLA for your most crucial systems. With DRaaS, the ability to run servers from the Unitrends Cloud ensures continuity while the primary site is repaired.

9. Automated Verification of Recoverability

Integration of Unitrends' Recovery Assurance capability with its all-in-one appliances provides continuous proof that the IT data and multi-tier environment are fully recoverable. Automated testing certifies that RPOs and RTOs are achieved.

10. Expert Customer Care and Support

Unitrends is extremely committed to our customers' success and registers a 98% customer satisfaction rating. This combined with our all-in-one appliances and renown customer care and support, results in greater customer satisfaction and confidence.
